

PROCEDURE TO RELEASE REGASIFICATION CAPACITIES FOR GNL ITALIA (ART. 7.2. RESOLUTION NO. 167/05)

By 23 September 2014, the Users have the right to make the regasification capacity, that they have and do not intend to use, available to GNL Italia for third party assignment regarding each month in the period included between November 2013 and the end of Thermal Year 2014/2015.

Each month of Thermal Year 2014/2015, by the sixth business day before month M-1, the Users have the right to make the regasification capacity that they have and do not intend to use available to GNL Italia for third party assignment regarding each month in the period included between month M and the end of Thermal Year 2014/2015.

The capacities thus made available for the Thermal Year 2014/2015 are identified by:

- a) volume capacity,
 - i. expressed in mc_{liq} for the months of Thermal Year 2014/2015 in which the process of associating the Cd with the distributed volume capacity was not already executed;
 - ii. expressed in mc_{liq} and associated with the calendar days for the months in which the aforementioned association process was already executed

and/or

- b) number of -landings that can be implemented at the Terminal,

by filling out the electronic form **-MODULO_RILASCI_CAPACITA'**, to be sent by fax to 02 3703 0339, available at GNL Italia's website under Business & Service – Thermal Year 2014/2015 – Capacity Booking and Transactions – Capacity booking and transactions of continuous type – Regasification Capacity booking during the Thermal year.

GNL Italia will make the capacities released by Users to GNL Italia available for assignment to third parties during the subsequent current Thermal Year assignment periods.

Regasification capacity releases will not be accepted in any case if:

- the requests are made after the deadlines indicated and/or are incomplete;
- the applicant does not have the capacity for the release.

Within two business days from the deadline to submit the requests, GNL Italia will inform the applicant if the release request is denied. If GNL Italia does not make contact, the release requests will be automatically accepted.

The regasification capacity set forth in the previous points a) and b) that is not booked during the assignment processes for the current Thermal Year may be available to the User who released it so long as this is requested by the User. The regasification capacity released for month M only that is not assigned to another party will automatically be available to the User who released it.

Any requests to replenish the availability of its regasification capacity provided for third party assignment between month M+1 and the end of the Thermal Year must be received by GNL Italia within the seventh business day before month M by filling out the electronic **MODULO_RICHIESTA_CAPACITA' RILASCIATA**, available on GNL Italia's website under Business & Service – Thermal Year 2014/2015 –Capacity Booking and Transactions–Capacity booking and transactions of continuous type – Regasification Capacity booking during the Thermal year.

Within the sixth business day before month M, GNL Italia will inform the User about the regasification capacity released that is subscribed by another User.
