

Snam Rete Gas provides the 19 points list (Points list.xls) concerning nominations and accounting of gas quantities, allocated to the Users from 1st February 2010, in order to cover the needs of gas consumption, network losses and unaccounted for-gas, in compliance with the Authority Resolutions n° ARG/gas 184/09, ARG/gas 192/09, ARG/gas 198/09 and to the pending approval modifications of the Network Code Chapters 8, 9 and 18.

Snam Rete Gas states that:

- According to the paragraph 6.3 of the Network Code Chapter 8, Users daily nominations have to take into account gas quantities nominated on the above mentioned 19 points, in order to balance the quantities input and off-taken from the network.
- Provisional balance will not take into account gas quantities allocated on the above mentioned 19 points, as foreseen by the Authority Resolutions n° ARG/gas 184/09, ARG/gas 192/09, ARG/gas 198/09, until new Snam Rete Gas communication.
- Definitive balance will be processed in compliance with the mentioned Authority Resolutions starting from February 2010 balance.
- Commodity charge will be invoiced, according to the Network Code provisions, including the above mentioned gas quantities; following the definitive balance, Snam Rete Gas will issue a same term credit note amounting to the commodity charge share of the mentioned gas quantities.

According to the mentioned Authority Resolutions, establishing the allocation to the Users, starting from January 2010, of the gas quantities needed to cover gas consumption, network losses and unaccounted for-gas, Snam Rete Gas informs that January 2010 gas quantities will be treated with different modality later communicated.
